

## Why should you join M-CAN:

- To access regional and global network focusing on climate change
- To gain access to knowledge repository to accelerate climate actions
- To stay up to date with new climate information and publications
- To explore joint programming and climate financing opportunities
- To build capacities through collaboration, partnership and knowledge sharing
- To have your collective voices heard in different forums nationally and globally

## Registration

M-CAN is a network of more than 20 non-state climate actors in Myanmar voluntarily committed to address the challenges by moving beyond climate discourse to climate action and advocate these actions.

AN INITIATIVE OF

**UN-HABITAT**  
FOR A BETTER URBAN FUTURE

Myanmar  
Climate  
Change  
Alliance

Funded by  
the European Union

# Vision

Build a stronger, engaged and inclusive climate network for enhancing multisector climate resilience in Myanmar

# Mission

Advocate, promote and undertake climate actions in Myanmar through partnership, knowledge generation and dissemination, and experience sharing and innovation

# Objectives

## Knowledge Management

Generate new climate knowledge and promote innovation

## Collaboration and partnership

Strengthen cooperation and mainstream climate change across different programs/projects

## Capacity building

Strengthen capacity building through tailored training, regional cooperation and knowledge exchange

## Resources mobilization

Advocate and mobilize more resources for accelerating climate actions

# Guiding Principles

## Dynamic

Embrace new challenges  
No static structure  
Knowledge generation  
Multi-sectoral approach

## Open

Inclusive  
Transparency but secured manner  
Seek solutions that fairly address climate challenge

## Action focused

Tangible climate actions  
Innovation  
Reflecting on local context  
Do-no-harm

## Sustainable

Co-creation  
Shared ownership and responsibility  
Resource mobilization  
Community-based actions

## M-CAN will:

- Gather climate change information and transfer this generated knowledge in an appropriate form for targeted audiences
- Build capacities through tailored training, collaboration and peer-to-peer learnings
- Promote engagement and involvement of private sector, NGOs/CSOs and community groups, etc. in climate actions
- Organize and participate in public forums, conferences and events at various levels
- Document and advocate the gaps in climate finance in Myanmar and support local CSOs to access climate financing
